

## Technical Specification

|                                               |                               |
|-----------------------------------------------|-------------------------------|
| Source Type                                   | External                      |
| Connector A                                   | 3 Way Terminal Block (Input)  |
| Connector B                                   | 4 Way Terminal Block (Output) |
| Input Voltage                                 | 90~265Vca                     |
| Output Voltage                                | 24V                           |
| Output Power                                  | 168W                          |
| Input Voltage Precision                       | 2%                            |
| Input Frequency                               | 50~60Hz                       |
| Input Filter                                  | EMI                           |
| Protection against Short Circuit and Overload | Yes                           |
| Dimensions (A x L x P)                        | 100 x 90 x 110mm              |
| Output Current                                | 7A                            |

CAS Switched-Mode Power Supply e 110/ 220AC S 24V 7A

168W
