

Technical specification

Transmission technology	RF 900MHz – Mesh network Radio module: Gridstream S5 SBR
Communication ports	RS232 - programmable speed from 300 to 115200bps RS232 - local configuration at 4800bps
Input/output ports	5 digital inputs with optical coupling - DC(2) and AC(3)
Connector A	DB9 male
Connector B	Female DB9
Connector C	TNC - RF antenna
Connector D	10-way terminal block - input and power supply ports
Average consumption	2W
Power Supply	65~280VCA (F+N+Earth)
Operating temperature	-10 a 70°C
Sizes	36,5 x 104 x 166,5mm
Weight	425g
IP Code	IP50W

Technical design
