

Technical Specification

Network	GSM 800/900/1800/1900MHz GSM GPRS/EDGE/SMS/HCS
Serial Communication	RS232 - Programmable Velocity from 300 to 115200bps RS232 - Local Configuration to 4800bps RS485 - Support Devices MODBUS/RTU
Input / output port	6 Digital Input with Optical Coupling – CA 2 Digital Input/Output 2 Input A/D 1 Output to Relay - 10A
Connector A	Male DB9
Connector B	Female DB9
Connector C	TNC - Antenna RF
Connector D	3 Way Terminal Block- Standard Serial Interface EIA-485
Connector E	22 Way Terminal Block - Input/Output Port
Connector F	2 Way Terminal Block - Output Power Supply
Connector G	3 Way Terminal Block - Input Port and Power Supply
Telecommand	Relay 1C 10A 120VCA Internal (cod. 100.0014.01)
Average Power Consumption	4W
Power Supply	65~280VCA (L+N+Earth) or 10~30VCC
Operating Temperature	0°C to +70°C
Dimensions	134 x 101 x 52mm
Weight	460g
IP Code	IP50W

	RS2000 Standard 6SF
	4BAND
	COD. 100.0143.00
